Field Day

Technology in Pastoral Systems Field Day at Wyndham Station

Tuesday 5 September 9.30 am - 4 pm

Western Local Land Services has a great opportunity for landholders to see what technology is available and how it can be used to improve their business.

This will be an opportunity for landholders to get together with local businesses, industry consultants, research groups and government organisations to see the technology that is available for use in pastoral livestock businesses.

Attendees will participate in group discussions while also splitting into smaller working groups that will rotate through workstations.

The workstations will focus on:

- drones
- electronic ID
- electric fences
- telemetry
- planning and record keeping
- cutting edge technology.

RSVP by Friday 25 August

This is a free event. Lunch will be provided. Please RSVP for catering purposes.
